

Heizer Defense Press Release

Heizer Defense

8750 Pevely Industrial Drive

Pevely, Missouri 63070

Heizer Defense PS1 Pocket Shotgun Pistol will be carried by AcuSport

Pevely, MO – Heizer Defense, a leading designer of unique and high quality firearms has announced that AcuSport Corporation will be carrying the Heizer Defense products.

Heizer Defense has begun production and is rolling out their new PS1 Pocket Shotgun Pistol. The PS1 shoots a 410/45 Colt round, but is the about the size of an iPhone.

Gary Ramey, GM/COO of Heizer Defense noted "The PS1 is engineered and manufactured by the same skilled machinists that design and produce product for our Aerospace, USA Military and NASA customers. Heizer only *uses* high quality material like stainless steel to produce the PS1 Pocket Shotgun. We want the consumer to have a safe and enjoyable experience. We also want to partner with the best Distributors and look forward to our partnership with AcuSport Corporation. We'll be at the AcuSport Show in January and anticipate a strong response."

Based in Bellefontaine, Ohio, AcuSport Corporation is a nationwide distributor of shooting and hunting products with regional sales offices in Pennsylvania, Georgia, Minnesota, Texas, Montana and California

First shipments of the PS1 Pocket Shotgun Pistols will be available from AcuSport on January 1, 2014. Independent retailers, who would like to place an order, please call 1-800-543-3150 or visit AcuSport's e-On Line ordering system at www.AcuSport.com for additional product information.

Heizer Defense is a high technology, state of the art firearm company based in Pevely, Missouri that was founded in 1962. Heizer Defense is an affiliated company of Heizer Aerospace, which manufactures fracture critical components for aerospace companies, NASA and the military. Heizer Defense Engineers apply the same military technology to create high quality firearms.

Heizer Defense was founded by Charlie Heizer who escaped from war-torn Hungary over 50 years ago. He has dedicated his life to engineering solutions that support American values and freedom.
