Heizer Defense Receives Visit from Missouri Senator

(Pevely, MO) - Heizer Defense was recently visited by Senator Roy Blunt of Missouri, a Republican Senator with an A rating from the NRA. Joining Senator Blunt was a number of state and county executives, as well as members of state and local Law Enforcement. Senator Blunt's campaign message of "More Jobs, Less Government" fits handedly with the Heizers' own political beliefs.

During his visit, Senator Blunt toured the Heizer Aerospace facility where large structural components for commercial and military aircraft are manufactured. The Senator also toured Heizer Defense, known for their innovative line of powerful pocket pistols.

Pictured below, Tom Heizer, a Heizer Defense Principal, shows Senator Blunt Heizer's first revolutionary semi-automatic pistol, the PKO-45. The PKO-45, or Pocket 45, is the slimmest semi-auto .45 ACP on the market at just 0.8" wide and approximately 25 ounces, making it the ideal pistol for home defense and concealed carry.

The Heizers greatly appreciate being a part of the Senator's campaign stops, where he has been very busy visiting manufacturing locations throughout the state of Missouri. The Heizers are proud to offer their full support for Senator Blunt in the upcoming election.
